Hello Jim,

Thanks for the note and the understanding. With Chris Martin's explanation, it all made sense to me. So it is OK to just send the following:

I approve of the IDS students not having to take the prerequisite for MKTG 3148. This class was created by the instructor (Matthew Wilson) with Interactive Digital Studies program in mind.

Would that be enough?

Thanks for working with me on this.

Thanks,

Matt Bunker
